The War Situation

Big efforts are being made to straighten out the tangle in the near east between Greece and Turkey and a conference of all the allied powers with Greece and Turkish representatives present is being held at Mudania. What is being done or said at this conference is being held completely secret, no telephone or telegraphic facilities being available from this place to tell what is happening.

The Turks seem to be in a reasonable mood and the threatening aspect of a clash between Great Britain and Turkey which seemed so imminent last week has for the present been averted.

Greece is in a state of turmoil and King Constantine has again been deposed. They still insist on their demand that the Turks be kept out of Thrace but what will be the outcome of the conference on this question is still unknown.

It is being admitted now that instead of bringing on a war the action taken by Great Britain to defend the neutral zone and the Dardanelles at any cost has been the means of averting war at any rate for the present.

LATEST DESPATCH

LONDON, OCT. 3.—An agreement has been concluded between the Allied Generals and the Turkish representatives at Mudania over an armistice according to an Exchange Telegraph message from Constantinople today. It is expected that the protocol will be signed today.

Will Arrange For Lifting Embargo

A preliminary meeting of representatives of the British and Canadian governments will be held in London, Eng., on Friday to discuss the drafting of legislation for raising the embargo against Canadian store cattle.

Ireland Settling Down

Latest news from Ireland seems to indicate that after the strenuous times they have been having that they are getting together in the Free State.

The Irish government has issued a proclamation offering full amnesty to all offenders who surrender their arms before October the 15th.

The famous clause 17 regarding the oath of allegiance, over which it was thought there might be some trouble, was passed in parliament on Tuesday without division. This oath must be taken by all members of the Irish government and states that "they will be loyal to the constitution of the Free State and faithful to His Majesty King George V, his heirs and successors and adherence to the membership of the group of nations forming the British Commonwealth of nations."

NOTICE TO SHAREHOLDERS

The annual meeting of the shareholders of Didsbury Hints Limited will be held in the C. P. R. Waiting Room on Thursday evening, October 12th, 1922 at 8 o'clock p. m. This meeting is important as it starts off our winter activities and we must arrange ways and means. 2c-10 W. G. Lieseman, President.
E. E. Freeman, Secretary.

WANTED:—A maid for general house work, one able to do plain cooking. Apply Matron Didsbury General Hospital.

The W. I. constituency conference of Didsbury district will be held in the Opera House on Friday, October 6th, beginning at 10.30 a. m.

The W. I. regular meeting will be held at the home of Mrs. N. Clarke at 2.30, on Friday the 13th of October. Mrs. Pearson will give a report at this meeting of the constituency conference to be held next week.

Prov. Chief Game Guardian B. Lawton states that trapping and selling unprime muskrat skins is now illegal and that every offender against whom the Department secures information will be prosecuted.

This week's issue contains a notice calling a meeting of the Birds Ltd. This brings very forcibly to mind that winter will soon be here and soon the old hockey sticks and curling brooms will be going full swing. A curlers meeting will be held at the depot on October 12th, at 8.30 p. m.

Two of our local huntsmen came back to town on Monday evening with a very fine bag of game consisting of four very large Canadian geese. They were splendid birds and are a rather rare catch around here. The huntsmen, Messrs. I. Thompson and J. A. McGhee, are feeling rather proud of their luck.

Help The New Immigrant

In announcing Canada's new immigration and land settlement policy, Hon. Charles Stewart, Minister of Immigration and Colonization, made it plain that the cardinal features of that policy would be (1) careful selection of immigrants in country of origin, and (2) wise direction after settling in Canada.

The importance of these two things can hardly be over-estimated. In the past Canada has lost tens of thousands of immigrants who, after coming to this country, have drifted away to the United States or returned to the land from which they came. The reason is not far to seek. Many in the first place were not of a type or class at all likely to succeed in this country. Others, and probably a much larger number, became discouraged because, through lack of knowledge and "wise direction," they made fatal mistakes, resulting in loss and ultimate failure.

Careful selection of immigrants in the country of origin will operate to prevent men and women wholly untrained by previous environment and habit from succeeding in a new country like Canada from ever embarking on such a venture. For example, it is but inviting failure to send a man to Canada who all his life has followed, say, the occupation of silk reeling. He knows silk reeling thoroughly, but is qualified to succeed at that and nothing else. To send such a man and his family to making a livelihood in Canada at farming, or lumbering, or mining is to invite trouble all round. He has neither the training, the physique, or the adaptability required to succeed.

What Canada needs and must have are the average sturdy men and women and boys in their teens, who have the physique to stand hard work and can adapt themselves to manual labor. People who can work, and are willing and desirous of working on the land itself, are the type having the best possible chance of making a success in Canada.

But even more important than careful selection is the provision of wise direction after they have arrived in Canada. Many men and women having the qualities necessary to succeed have failed because of wrong direction or no direction at all. They have become round pegs in square holes. Some have unfortunately located on land which was not suitable for agricultural operations. Failing where success was practically impossible they have left the country, whereas had wise direction been provided they would have been advised and assisted to locate elsewhere in Canada where success would have attended their efforts.

Therefore, the plan now proposed of keeping close check on every incoming immigrant and assisting him in getting properly placed, and with advice and practical help when needed tide him over periods of discouragement and seeming things only temporary failure, appears to offer the best possible chance of peopling our vacant lands with men and women who will stay and make a real success in Canada.

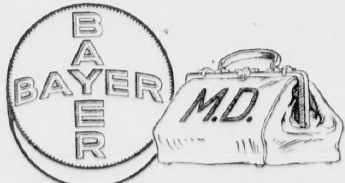

Such a plan to succeed must have the cordial support of individuals all over the country, and the plan formulated at creating best community clubs to care for and assist incoming settlers, thus building up a great national welfare organization, is sound.

Coupled with this is the other and sensible plan, of placing these new settlers on lands fairly close to existing lines of railway, but which are now held by speculators and absentee owners. These lands, it is proposed, to have lived and sold upon long terms of payment, involving only a small annual payment of principal and interest upon the amortization plan. Nothing so placed will have a much better chance to succeed than those placed acres of miles from any available means of transportation, or located in "timbered off" by themselves.

People are restless in the districts where these new settlers are to be placed should be ready to help them, because for these people local taxation will be reduced and modern services and utilities not denied to them because of prohibitive cost will be made accessible. Placing these people with in access of existing railways will operate to wipe out the present staggering debt on our National Railways and in many ways this proposed move just as a settlement will make sense, saving all round when it comes to settling people far apart over hundreds of acres resulted so responsibly in dispersing action and failure.

ASPIRIN

UNLESS you see the name "Bayer" on tablets, you are not getting Aspirin at all

Accept only an "unbroken package" of "Bayer Tablets of Aspirin," which contains directions and dose worked out by physicians during 22 years and proved safe by millions for

Colds Headache Rheumatism
Toothache Neuralgia Neuritis
Earache Lumbago Pain, Pain

Handy "Bayer" boxes of 12 tablets—Also bottles of 24 and 100—Druggists. Aspirin is the trademark registered in Canada of Bayer Manufacturing of Monach, Germany, and is the only name used for Aspirin. While it is well known that Aspirin means Bayer Aspirin, the public should be reminded that the name of Bayer Aspirin will be stamped with their general trade mark, the "Bayer" cross.

New Building Material

Europe is trying something new and unique in building materials in connection with the great reconstruction movement in the battlefront districts. It is converting the boxes in which shells were transported to the front into building blocks. The boxes are filled with cement plaster to dry and then assembled like hollow bricks. They are said to form walls of great strength. In the present shortage of brick the cement filled shell boxes not only comprise a very accessible substitute but greatly reduce construction costs.

DO YOU FEEL LIKE THIS WHEN YOU WAKEN?

Do you feel blue, sick, heavy, tired to get up? Is it so, it is probably just like this is also, and needs to be turned and stimulated by Dr. Hamilton's Pills. It's a wonderful change Dr. Hamilton's Pills will make in a few days. They relieve the system of stomach troubles, they add the stomach, improve digestion, increase your appetite. You'll feel like new all over after using this health giving medicine. Thousands have proved it. Sold everywhere in 25c boxes, or The Catorrhine Co., Montreal.

Hungarian Lake is Drying Up

Volcanic Changes in Bed Responsible Say Geologists

The biggest lake in Hungary, Lake Balaton, covering 260 square miles, would appear slowly to be drying up. In some places the water has receded a mile from the old shore line within a few years and the shrinking continues.

Scientists can give an explanation for this. There has been about of rain recently. Geologists say that volcanic changes in the bed of the lake are responsible.

You May Be Ill To-Night Have You A Remedy?

It may be a disordered stomach, perhaps cramps or acute indigestion. If you have no remedy handy, you're bound to suffer. Twenty drops of Servelle in sweetened water will ease the pain and enable you to get a good night's sleep. Where it is Neuralgia, Sick Headache, or some other minor ailment, Servelle can be used internally or externally and will be found a true friend for every family. Large 25c bottles sold everywhere.

Season has observed the glow of Rio de Janeiro, a city noted for its brilliant illumination, 100 miles out at sea.

It will Prevent Ulcerated Throat.—At the first symptoms of sore throat, which precedes influenza and influenza, take a spoonful of Dr. Thomas' Electric Oil. Add a little sugar, it is to make it palatable. It will allay irritation and prevent the ulceration and swelling that are so painful. Those who were periodic with subject to throat have this medicine themselves immune to attack.

The Egyptian canal, built by men of many years ago. Several centuries it is to be 2000 years old have been found with mummies of Egyptian women of fashion. The Egyptian gods hold nothing a preparation at finely powdered ointment with which Egyptian women of fashion darkened their eyelids and perfumed their eyebrows.

How Times Do Change?

The Watlington Telescope repairer, an article from a Watlington paper printed fifteen years ago urging the farmers to pledge every candidate for Parliament to use his vote and to place in view of a law abolishing automobiles from using the public highways. —Kilmer Review.

Put it in for Game Back.—A brisk rubbing with Dr. Thomas' Electric Oil will relieve lame back. The skin will immediately absorb the oil and it will penetrate the tissues and bring speedy relief. Try it and be convinced. As the blood sinks in, the pain comes on and there are ample grounds for saying that it is an excellent article.

Practical Makes Perfect After a few years of marriage a woman can mentally pass a dinner party, make over an evening gown or redecorate the house while she is automatically thinking her husband goodby, after breakfast. —Helen Goodwin.

Minors's Content used by Physicians

Canadianizing Canada

The Value of Tourist Travel to the Dominion

Travel is one of the greatest elements in education and is one of the fundamentals of good citizenship. The desire to know one's own country should be inculcated into the system of every Canadian and to obtain any adequate knowledge, how can it be acquired better than by travel? "Canada," "See Canada," and "See Canada First," etc., have been adopted as slogans in the endeavor to create in the minds of Canadians the advantages of national travel and the attractions Canada has to offer.

The purpose of this article is not only to give expression to the importance of Canadians seeing Canada that they may have a fuller appreciation of what their own country has to offer them in the way of scenery and interest, but to emphasize particularly the value of tourist travel to the nation, and the duty we owe ourselves in developing our tourist territory—so to speak to capitalize the scenery. Possibly no other country in the world has so much to offer a greater area of country for recreation purposes and these great playgrounds are not confined to any particular section but are spread from the Atlantic to the Pacific. Then again from the seashore resorts of the Atlantic and the lower St. Lawrence to the Pacific Coast the interests are so varied and so distinctly different from one another that our Canadian people may use their vacations for years and find new scenery and new interest annually. From the quiet beauty of the Maritime Provinces to the more rugged scenery of the Province of Quebec, the almost continuous lake and river country of Northern Ontario, the Rocky Mountains so immense, beautiful and wonderful as to defy the imagination, cannot be imagined without personal vision and knowledge what a wonderful asset we have in our widespread playgrounds and national parks.

But to make the most of these wonderful heritages, to realize the fullest amount of pleasure they must be developed. The Provincial and Dominion Governments must be keenly alive to what the possibilities are good roads to the wonder places and beauty spots are essential so that the way of the tourist may be made easy and attractive.

Much has been done by the railways to advertise our tourist territory, which has resulted in millions of dollars being spent in Canada annually, principally by the contributors to the south of us, but the time has as yet only been touched. The Canadian National Railways have just opened Jasper Park Lodge in Jasper Park, that largest and most wonderful of all our national parks. The four square miles of magnificent, unimpaired scenery there will draw millions of tourists from all parts of the globe will gladly assimilate annually when the park is fully developed with good motor roads, and the system of hotels or campgrounds opened on time full rate are extended through the park. Jasper Park is but one of the many features places to be developed. Mount Robson Park, just fifty miles west from Jasper station, is another. Aside from Mount Robson being the highest peak in the Canadian Rockies, 12,000 feet, the park which is entirely within the province of British Columbia, is an Alpine kingdom in itself, but until such time as it is developed, the glory and majesty of its scenery is denied the tourist who does not choose to ride a cayuse.

By way of comparison it has been stated that tourist traffic in California alone is approximately a hundred million dollars a year, and the more Northern Pacific Coast States, Washington and Oregon, and fully half that amount to the total, whereas it has been said that tourist traffic in Canada all told, did not net beyond ten or twelve millions.

Again, the provinces of Nova Scotia and New Brunswick have all the advantages of the State of Maine, but comparatively little has been done to develop them. What this development may mean as a measure can be expressed by the fact that Maine last year reaped a harvest of over \$100,000,000 in tourist business.

Our wonderful tourist territory is undoubtedly one of our largest assets, and greatest heritages to be developed, and in the opinion of many interesting travellers who have visited us, Canada possesses the finest aggregation of scenery in the world. —Toronto Star Night Night.

Says Tanlac Is Fine To Build Up Weight

Persons suffering from stomach trouble and who are under weight find an ever-ready friend in Tanlac. This celebrated medicine has ended fast digestion and increased the weight for thousands of people everywhere. Mrs. M. Sanderson, wife of a well-known grain buyer of 631 Anderson Ave., Winnipeg, Man., says: "I got so weak and run down the least bit of housework was too much for me. I just dreaded to eat, for my food would sour and keep me in misery for hours. I gained twelve pounds and look better and feel better than I have in years."

Under nourishment is the cause of most cases of indigestion. Tanlac enables the stomach to extract the healthy nutriment from the food, build up the whole body and increase the weight. Millions of people have testified to its great benefit. Get a bottle today at any good druggist.

Company U. S. Is In

The list of absentees among the supporters of the League of Nations is more easily called than the roll of its membership. Abyssinia, Argentina, Ecuador, Germany, Hungary, Iceland, Mexico, Russia, Turkey and the United States—Raymond B. Foskett in the Atlantic.

KEEP CHILDREN HEALTHY

To keep children healthy the bowels must be kept regular and the stomach sweet. Nine-tenths of the ailments which afflict little ones are caused by derangements of the bowels and stomach. No other medicine can equal Baby's Own Tablets in guarding either the baby or growing child from the ill that follow a disordered condition of the bowels or stomach. They are a mild but thorough laxative and never fail to give results. Convinced them. Mrs. W. B. Conledge, St. Louis, Mo., says: "I have used Baby's Own Tablets for over three years and have found them the best medicines I have ever used for my children. I never let a child have a bowel movement in my little ones and they have saved me many a doctor's bill. My advice to all mothers is to keep them in the box of the Tablets in the house." The Tablets are sold at all medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

In the government of their East land possessions the Dutch have a law which provides that the testimony of one white man will be equal to that of seven natives.

MOTHER SAVES DAUGHTER'S HEALTH

Lydia E. Pinkham's Vegetable Compound Helped Both Mother and Daughter

Lumadon, Saskatchewan.—"My mother had taken Lydia E. Pinkham's Vegetable Compound when I needed something for my periods I took it and got good results. I recommend it to women with any female troubles and I know other women who have been cured by it and do the same."—Mrs. MAX RITZEN, Lumadon, Saskatchewan.

Many cases like this come to our notice. Lydia E. Pinkham's Vegetable Compound is often recommended by the mother and the grandmother too, for fear in mind, it has been helping women for nearly fifty years.

Women Tell Each Other In your own neighborhood are women who know the value of this wonderful medicine and they talk to one another about it. So if you are troubled with pains and irregularities, a tired feeling, nervous and sleepless nights, or have other annoying symptoms caused by some female trouble, you have only to ask some neighbor what she thinks of your taking Lydia E. Pinkham's Vegetable Compound.

BOOK ON DOG DISEASES AND How to Feed Mailed Free to any who have a dog. Author H. C. LLOYD, V.M.S., 1211 N. 24th St., New York, U.S.A.

Strong British Forces Prepared To Deal With The Trouble In Turkey

Constantinople.—The British are mobilizing every available warship, man, horse, automobile, cannon and rifle within reach of the trouble zone. They are preparing to deal a tremendous blow by land, sea and air if provoked by the Kemalists army, which, according to latest reports, is now drifting steadily around Izmir and Chankay.

All the British barracks in Constantinople have been evacuated, and troops are marching in the streets of the capital, which is having a sobering effect on the exuberant Turks. The British soldiers are headed for strategic points on the Straits.

General headquarters has issued an official order directing the wives and families of British officers and soldiers to prepare to embark at once.

Transports with British cavalry, heavy artillery and supplies are arriving at Samsun, on the Black Sea coast.

The Ion of the Constantinople garrison are constructing entrenchments at Scutari on the Asiatic side of the Bosphorus, which will be a good line of defence, the first being at Yedigöller, a small railway station between Scutari and Beşiktaş.

The British police forces in the capital have been greatly augmented and will probably be assisted by French penderies. It is estimated that the present total British strength in Constantinople and the Bosphorus is about 16,000 men, which, when reinforcements, now on the way, arrive will be increased to nearly 25,000. These forces will be further strengthened by large detachments from the Atlantic and Mediterranean fleets.

The British are enrolling Russian refugees with military training for carrying work, while Russian Railways from Manchuria are being recruited as horse trainers. It is expected that eventually Great Britain will have more than 100,000 men in the disturbed area.

Had Adventurous Voyage

Captain and Wife Ninety-One Days On Pacific

Victoria, B.C.—After being tossed about by the giant waves on the Pacific for ninety-one days, Captain George W. A. Ward and his wife arrived here from the Orient with the Chinese junk *Amoy*. Practically all the crew were stricken with the flu and died. Twice in typhoons she lost her rudder. Then while Captain Ward was guiding his craft through a dense fog off the coast of Victoria, a great black tent loomed out of the fog. Captain Ward steered the other hand over and the vessel hit a Japanese steamer, struck within four feet of the *Amoy's* stern.

Large Increase in Wheat Area

London.—According to the estimates of the New South Wales Government, says a *London* despatch from Sydney, the area in the state under wheat cultivation amounts this year to 2,500,000 acres, representing an increase of 170,000 acres over last year's total acreage.

Determined to Enter Thrace

Constantinople.—Hani Bey, the Turkish representative here, informed the Associated Press correspondent that it was certain the Turkish army would declare war on the British if the British attempted to interfere with the movement of Turkish troops across the Straits to Thrace.

Forestry Student Killed

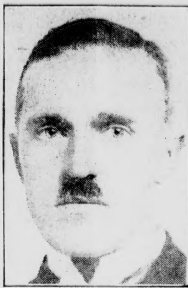

Fort William, Ont.—J. E. C. Brennan, a forestry student, whose home is in Deseronto, Ont., and who was working in the woods at Planderm, near Fort William, was instantly killed by a falling tree while cutting down timber.

Will Continue Relief Work

Geneva.—The International Committee for Russian Relief, it was announced, has decided to continue work for the relief of the Russian people, who are suffering from the effects of the Russian Revolution. The organization will bear the name of the Russian people in French being "Aktion Russian."

Barish Noisy Women

Interceptors at 2100 of Irish Parliament Are Noisy Ejected

London.—At a session of the Irish Parliament, Mrs. Charlotte Dwyer and Mrs. Charlotte Dwyer were ejected from the chamber for making noise. The speaker, Mr. Dwyer, said that the women were noisy and that they were ejected from the chamber.

London.—At a session of the Irish Parliament, Mrs. Charlotte Dwyer and Mrs. Charlotte Dwyer were ejected from the chamber for making noise. The speaker, Mr. Dwyer, said that the women were noisy and that they were ejected from the chamber.

London.—At a session of the Irish Parliament, Mrs. Charlotte Dwyer and Mrs. Charlotte Dwyer were ejected from the chamber for making noise. The speaker, Mr. Dwyer, said that the women were noisy and that they were ejected from the chamber.

London.—At a session of the Irish Parliament, Mrs. Charlotte Dwyer and Mrs. Charlotte Dwyer were ejected from the chamber for making noise. The speaker, Mr. Dwyer, said that the women were noisy and that they were ejected from the chamber.

May Winter Again In Arctic

Crewed Party May Not Be Able to Return This Season

London.—According to a message from Nome, Alaska, there is every indication that the party of Canadian and American explorers, who were sent to Nome to investigate the possibility of a winter route to the North Pole, will have to remain there for the winter. The party, which was led by Captain Joseph Bernard, left Nome on August 1st and has since been in the Arctic region.

Big Increase in Grain Movement

Reports Show Considerable Advance On Number of Cars Handled

Winnipeg.—Resumption of large grain shipments from Manitoba points consequent on dry weather enabling farmers to continue threshing, combined with augmented receipts from Saskatchewan and Alberta points, brought the Canadian National Railway's movement of cars to 1,175 on Sept. 19 against 883 on the same date last year.

During the present crop season, which commenced September 1, 14,379 cars of grain have been moved, this being a considerable advance on the same period last season, when 10,288 cars were brought into Winnipeg from the west.

Elevator Destroyed by Fire

Saskatoon.—Fire destroyed Brock's elevator at Mervin with 7,000 bushels of grain, half of which was wheat. Two other elevators were saved by the efforts of the local fire fighters with buckets and chemicals. The property was fully insured and the companies that own it will start building again immediately.

Germany Paid Alliance 10,000,000 Marks

Berlin.—The Government, according to the newspapers, has paid to the Allies 10,000,000 gold marks, as part of the installment of 25,000,000 in liquidation of Germany's private pre-war debts to the Allied nations.

Express Messenger Killed

Kemora, Ont.—Ralph Flowers, messenger in the employ of the Canadian National Express Company, was killed at Hunter while trying to load a moving train.

British Subjects Do Not Change Nationality Within The Empire

Bolivia and Chile May Have War

Geneva.—The relations between Bolivia and Chile are such that "grave difficulties" threaten unless the mediation of a friendly power or the arbitration of the League of Nations can be secured. This declaration is made in a letter received by the Secretary of the League Assembly from Alfredo Gutierrez, Bolivian delegate to the assembly. He points out that Bolivia has been unable to reach an understanding with Chile by direct negotiations regarding revision of the treaty of 1904.

WILL WAIT FOR DROP IN COAL

FORD PLANT SHUT DOWN UNTIL PRICES EASE OFF

Detroit.—Henry Ford and his executives are waiting "almost" day and night in an effort to find a way out of the Ford Motor Company's coal problem, and the manufacturers is determined to reopen his Detroit plants "at the earliest hour possible," it is stated.

Mr. Ford was represented as being undecided in his resolve to keep his plants closed until coal prices have swung back to what he considers a fair figure.

Mr. Ford and his department managers were seeking a way out of the difficulty, the job of reopening the Ford plants was being given serious study by the Detroit Board of Commerce, which is making an effort to obtain coal for the motor concern. Closing of the Ford industries has thrown approximately 25 per cent. of the working force in the Detroit district out of work.

Says States Should Help Great Britain

Hamilton Man at Cleveland Touches On Turkish Situation

Cleveland.—The United States should be prepared to cooperate with Great Britain in handling the Turkish situation that the peace of the world may be maintained, declared Sir John Gibson, of Hamilton, Ontario, at the 11th convocation of the Supreme Council, 22nd Degree, Ancient Accepted Scottish Rite Masonry for the North and Masonic jurisdiction of the United States.

Sir John touched upon the Turkish problem in conveying the fraternal greetings of Canadian Scottish Rite Masonry to the Council.

Come North For Game

Regina.—Over 600 Americans came into Saskatchewan this year to shoot ducks, according to an estimate by Provincial Government officials.

Vancouver.—"I should like to see that you abandon these words 'immigration' and 'emigration' in respect of the movement of British subjects to the dominions," urged Major A. L. Belcher, of London, head of the Empire Exhibition mission touring the dominions, in a speech to the Canadian Club here. "These changes of residence are not changes of nationality. They are simply moving from one part of their country to another. I suggest that the word migration be used in future. They are still British subjects wherever in the Empire."

Imperial unity was declared to be the keynote of the proposed exhibition of products of Great Britain, the dominions and the colonies, to be held in London in 1924.

Imperial land settlement, the speaker stated, the dominions could not expect to obtain efficient labor from the Mother Country. There is employment at home as more efficient farm laborers than we have," he said. "In a many years' time, the occupation is not necessarily a vital factor in determining what success may have in a new country."

"The best dairy farmer I saw in West Australia was eight months previous to a man conductor in Lambeth," he said. Major Belcher said the Prime Minister was taking more than a perfunctory interest in his position as chairman of the exhibition central committee, and was attending all meetings and taking a lively interest in the proceedings. He indicated cable communications which he had had from His Royal Highness during his present tour.

Veterans Ready to Enlist

Vancouver.—Veterans who served in the Near East during the Great War are volunteering here steadily for a campaign against the Turkish empire. Some of these have pointed out to Brig. Gen. Victor Odlum that the fall in the Turkish empire is characteristic of the Turks' method of warfare. Local veterans of the Mesopotamian campaign expressed further trouble, and an extension of the fighting to Mesopotamia, General Odlum says.

Canadians Reach Malta Safely

Boston.—The American Board of Commissioners for Foreign Missions received a cablegram from Dr. Alexander MacLachlan, of Kingston, Ont., President of the International College at Smyrna, saying that he and his family were safe at Malta. The cablegram said that James L. Murray, of Ontario, a member of the college faculty, was also at Malta.

Raid on Liquor Halls

Windsor, Ont.—More than half a million bottles of beer, ale and porter, are being held by provincial authorities following a series of raids on brewery company warehouses in and near this city. The raids were made under order of Hon. W. E. Roper, Attorney-General of Ontario, who charges the companies with failing to make proper returns of the liquor sent out of the country.

Prominent Miner Drowned

Nome.—James Andrews, prominent miner, operating gold mines between Cripple and Rodney Creeks, west of Nome, was drowned while attempting to ford Penny River, nine miles from here.

\$40,000 Winnipeg Fire

Winnipeg.—Fire caused a loss estimated at \$40,000 in the plant and building of the W. J. Boyd Confectionery Company, Spence Street. The loss is covered by insurance.

Died in 10th Year

Montreal.—Mrs. James Johnston died here in her 10th year. She was born at Hamilton, Scotland, in 1819.

Schooner Wrecked

Nome.—The schooner *Oiga* is a total wreck on the beach at Port Safety, two miles east of Nome.

Patrol your local printer. It is possible to send you a printing out of town. It does not pay to make it which way you look at it.

PASSING THE "BUCK."

(Daily Express (London))

Shelter Belt Planting Live Stock Profits

Every experienced feeder knows, and every farmer should know, that stock will not thrive or live on flesh when constantly exposed to the winter winds of our western prairies. On the other hand, it is well established that if afforded adequate protection from the winds, live stock can be profitably fed to finish in the open even in our coldest winter weather.

I am quite aware that this statement may be questioned by persons lacking actual experience, but definite proof of its truth is fortunately available from many different sources. Reference may be made to the work in this line carried on at the Brandon Experimental Farm (especially during the Superintendency of Mr. James Murray, now District Representative at Medicine Hat for the Alberta Department of Agriculture); to the experience covering many years, of Messrs. R. J. Phin of Moosomin, Saskatchewan, W. F. Puffer of Lacombe, Alberta, Colonel Harry Mullins of Winnipeg, Mr. Grayson of Newdale, Manitoba, and many others too numerous to mention.

The Prairie Garden

Leaving the barnyard, we come to the garden, and it is surely needless to say that on the bald headed prairie a good windbreak is essential to the well-being of the garden.

Given shelter from the wind, and reasonable care, the gardens of the prairie provinces are as good as can be found anywhere. All the standard vegetables and small fruits flourish in abundance, while as for flowers, the old friendly favorites of one's childhood and the most modern varieties, as these are introduced respond readily to the rich soil, the warm sun and the placid atmosphere of the oasis of the shelter belt.

When properly laid out, trees also effectively prevent those vast accumulations of snow which, during the winter storms often surround and even more or less completely cover farm buildings, thus not only saving much extra work, but allowing the yards to dry out more quickly in the spring.

17½ Tons Corn per Acre

When endeavouring to acclimatize field corn in Western Saskatchewan and Alberta, where, owing to high altitudes, cool nights and battering winds, it was for long difficult to obtain home-grown seed, the writer on one occasion fortunately

planted a small field lying south of an excellent shelter belt of Manitoba Maple and Russian Willow. This corn did wonderfully well, producing 17½ tons to the acre, as against an average of somewhat less than 8 tons, when grown in the open.

Subsequent similar experiences led to my planting sunflowers in the corn field for shelter purposes, as the sunflower grows more rapidly than the corn, is less affected by winds and achieves, if of the right variety, a somewhat greater height. Four rows of sunflowers were planted to every twelve rows of corn; the prevailing winds being North and North-West, the rows ran East and West. The result was very interesting, the rows of corn immediately south of the sunflowers being practically equal to them in height, with each succeeding row markedly shorter until the next sunflower shelter was reached, when the same condition was again observable. In fact the whole corn crop presented a succession of southerly slopes, divided by the strips of sunflowers.

It will be observed that without specially mentioning the fact we have got away from the buildings and into the open fields. There also, the shelter

Care of Health on Trains.

THE care of the public health on trains is a matter which occupies a great deal of the attention of railroads. The average passenger on an up-to-date train, while enjoying the luxury it affords, is not fully aware of the pains that are taken to provide for his comfort. The Canadian Pacific Railway has its health regulations for the welfare of its patrons. These regulations are compiled by eminent doctors, chemists and sanitary engineers in collaboration. The regulations are strictly enforced all over the system. The result of these efforts is that the sleeping, dining, parlor and other cars are as healthy as a comfortable and sanitary home.

In order to give the most hygienic service, the Canadian Pacific wherever possible, has food put up in individual containers. Cereals are in small packets, one of which is used by an individual at a time. Jams are in small jars. Shell oysters are always used for all purposes, as it is difficult to keep bulk oysters fresh for long. Canned goods are never used on the Canadian Pacific.

Every employee on the train must be in good health. Doctors are engaged by the railway to see to this. At all lay-over points and large terminals, large hostels are conducted for the benefit of railway men. These hostels are supplied with shower and plunge baths, sleeping quarters, reading and writing rooms.

In handling people on millions of

(1) A standard dining car used on Canadian Pacific Railway lines.
(2) A bathroom observation car on the Canadian Pacific cross continent train.

trips each year, it is only natural that some are not in perfect health, but frequently disinfection of cars with a special fumigation of formaldehyde kills all bacteria, and makes trains more healthy than any other place where any large number of persons congregate.

The greatest care is taken that sweeping, mopping, dusting, brushing, ventilation, heating, lighting, watering are done in the most thorough and sanitary fashion.

The average person spends about one-third of life in bed, so it is especially desirable that railway sleeping quarters should be sanitary and comfortable.

On the Canadian Pacific after a long trip over dusty roads, mattresses must be taken out of car, vacuumed and aired; upper berths dusted and washed out; lower berth seats, upholstery and carpets re-

Effect of Tariff on Stock

A good many farmers and stock raisers at the present time, who have not sold their surplus stock, are wondering what effect the new United States Tariff regulation will have on the livestock trade. With the duty being increased approximately from 50 to 75 cents per hundred pounds, (the old tariff was based on a straight duty of 30 per cent., whereas the new Tariff calls for one and a half cents per pound on cattle up to 1050 pounds and two cents per pound on those over that weight) we would naturally assume that

with American markets practically setting the price on our stocker cattle that they would depreciate at least the value of the extra duty. After considerable thought and investigation, we do not believe we are justified in taking too pessimistic a view of the situation. The material improvement in the feed situation in various parts of the Province during the past month, enquiries from Ontario for stocker cattle and a possible strengthening of prices across the line lead us to think that very little change in prices will be noticeable. Eastern packers are buying heavily on Western markets, showing that supplies in their own districts are somewhat limited. Considerable thought is also being given to the possibility of stocker cattle being shipped to the Old Country, and while transit expenses at the present time look prohibitive, any prospect of

lower rates would be immediately reflected here. Summarizing the situation we would strongly advise livestock raisers to fully post themselves on market conditions, as thousands of dollars have been lost to the raisers during the past few months for lack of this knowledge. —United Grain Growers Livestock Dept.

School Fair a Success

The School Fair held on Saturday last was considered to be very successful. The weather while pretty breezy was nevertheless satisfactory. It is estimated that there were about five hundred in attendance including school children, which is a much lower attendance than a fair of this quality deserves and rather lower than last year's. It is to be hoped that in future the adult population will turn out better to this fair as it deserves their hearty support. The exhibits were in most cases excellent, surpassing in some classes those at the Didsbury Exhibition. The vegetable classes in particular were well filled and some of the vegetables were certainly great specimens. There were also quite a few entries in the colt, calf and poultry classes, the poultry having a fairly large showing.

The judges had their work cut out in judging all the exhibits and the doors to the exhibition building were not opened until about 3 o'clock when there was a scramble amongst the youngsters to see who had won prizes. In the meantime a fine program of sports was being carried out in which there was much interest shown. Following this there was a baseball match between some of the Carstairs and Didsbury boys in which the locals lost out. In a game of basketball later on, however, between the Carstairs and Didsbury High School girls, revenge was taken out on Carstairs and a very fast game was played. This is the second game between these two teams, between which the rivalry is very keen, Didsbury winning. Other fast games are promised in the future between the two teams.

This was the last of a series of school fairs held under the supervision of the O.K.S. School of Agriculture, the staff of which acted as judges at the different fairs to the number of twenty-six.

Picarello Committed For Trial

The two whiskey runners, Picarello and Mrs. Latsandra, who were arrested for murdering Constable Lawson at Coleman last week, were committed for trial by Magistrate Gresham at the preliminary at Coleman on Tuesday. This diabolical murder has roused the whole south country and very little sympathy is being shown the prisoners.

Shelter Belt Planting and Live Stock Profits

Continued from page 4

hell is a most important factor, not only in protecting growing crops from unkind winds, as already indicated, but in pre-

venting the fatal soil drifting, which, of recent years has done much widespread and in many cases irreparable damage.

Forest Belts or Lost Farms?

It is a much more serious and expensive undertaking to provide windbreaks for an entire farm, than it is to plant the sheltering trees necessary to protect the small area occupied by the home buildings and garden. Nevertheless, while other agencies may also be of value, wings of the wind, or for what it will fetch, less the humus at ready going.

where they belong. On many Southern prairie farms it is a pressing question today and will be an even more exigent one next year and after, as to whether the forest belt shall come, or the farm shall go, either on the it is Nature's softest and surest way of holding things down.

Railway News

Montreal.—On August 20th, George H. Han, the Grand Old Man of the Canadian Pacific, celebrated his seventy-fifth birthday and received congratulations from all over Canada.

Vancouver.—Railways in Canada are in an excellent position to handle the bumper grain crop of the prairie provinces. There are also 16,000 cars in the western division of the C.P.R. ready to handle grain moving westward from the prairie grain fields, officials of the railway state. C. A. Cotterell, assistant general superintendent of the C.P.R. western lines, stated that heavy shipments will be made to the Orient through this port.

Toronto.—American tourists last year spent \$75,000,000 in Canada, according to an estimate made in an official report of the Dominion Government Parks Department. Last year more than 100,000 tourist motor cars entered Canada; that would amount of half a million tourists. This year the number will be much greater, for the tide is growing rapidly. The railways are having a very busy season.

Winnipeg.—After a careful survey of reports received from C.P.R. agents throughout the West, it is estimated that this year's crop will approximate 217,000,000 bushels, according to the weekly crop report of the C.P.R. agricultural department issued here.

Reports indicate that the Western crop generally is turning out well. Even in areas where some yields were lower, the conditions have proved better than anticipated.

Vernon.—Recent indications are that the 1922 British Columbia apple crop will total about 2700 or 3000 cars.

Last season was the province's big crop year, when approximately 3000 cars were packed out.

The C.P.R. has made many provisions to take care of the valley's transportation demands. On nearly every side between here and Calgary refrigerator cars are waiting to be shunted to the packing houses, while horses are well stocked.

Calgary.—While Calvin Coolidge, Vice-President of the United States, was not inclined to talk about trade relations, tariffs or anything of that nature when he arrived here on the Trans-Canada train of the Canadian Pacific Railway, he waxed most eloquent in his praises of Banff and Lake Louise and of the Canadian Rockies along the route by which he had travelled.

"No wonder you Canadians are proud of your mountains," he asserted, "they are magnificent." The Vice-President spent some time in conversation with J. H. Cameron, general superintendent of the Alberta Division of the C.P.R.

Montreal.—According to a joint circular issued by the Canadian Pacific Railway and Canadian Pacific Steamship Limited, Mr. Allan Cameron is appointed Oriental manager, with office at Hong Kong, effective October 1.

It is understood that Mr. Cameron will be in charge of both traffic and operating departments. The extensive growth in recent years of Canadian Pacific activities in the Orient, with enlarged fleets and services which have added Manila to the ports of call, has involved also the growth of the administrative headquarters from Yokohama to Hong Kong. Mr. Cameron is familiar with Hong Kong, as from January, 1901, to September, 1905, he was located there as general agent of the Asiatic business of the Oregon Railway and Navigation Company's line of steamers.

Mr. Cameron's first connection with the Canadian Pacific Railway was at Winnipeg as clerk of the local freight office in 1887.

XVIII.
Elinor H. Elliott.

On Monday, August 29th, at 8:30 p.m., peace was declared. Even more important is the fact that I won, and Mr. Livingston plays the part of the humble vanquished to perfection.

Mr. Bingham had intended to come into town with us on Monday, but at the last minute something occurred to change his plans and Mr. Livingston came instead. I thought the joy of twenty miles ride with a person whom you do not feel free to talk to?

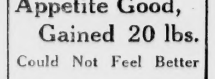

We made an early start and reached the town just in time for luncheon.

Spent the whole afternoon shopping, and dinner and a half-hour nap afterwards, then started for home again, reaching the ranch shortly before midnight. What do you think of that on a strenuous day? Shanty kept near all the way home, and I wanted to be out.

Canton City's largest shop, where we spent the most of our time, is just the old General Store, only big.

There is the same incongruous variety of goods, the same group of homely, and the same friendly interest in customers' affairs on the part of the clerks. I needed nothing but glycerine and rose-water, of which I use quite a lot. I had had in a good supply of pills. I wandered to the other end of the store, on picture postcards bent, leaving Mrs. Bingham to continue her search for Santa Claus' stockings and sandals.

A very obliging young "salesman"

Appetite Good, Gained 20 lbs.

Could Not Feel Better

From a nervous wreck this man was restored to health, strength and happiness.

He tells his own story in this letter.

Mr. Ralph A. Roberts,
Lovers, Sask., writes:

"In 1917 I had lost all appetite, failed 25 pounds in weight, became very nervous and shaky and I felt going up all legs of recovery. For some time I had suffered from constipation, which kept getting worse, until I was last December a real wreck. Doctors and their drugs were sending me to my grave at the age of 39.

"Then I read about people being cured by Dr. Chase's Nerve Food and after three months' use of Dr. Chase's Nerve Food and Kidney-Liver Pills I found that my health was restored to normal moment each day and the constipation was no more. I had a good appetite, had gained 20 pounds and could not feel better. I shall always be grateful for these benefits."

Dr. Chase's Nerve Food, 50c a box; Dr. Chase's Kidney-Liver Pills, 25c a box, all dealers or Edman, Bates & Co., Ltd., Toronto.

W. N. U. 1429

assisted me to pick out several dozen postcards of the wild and woolly variety that I affect for my British correspondence—the people at home expect cowboys and Indians, so why disappoint them?

Just as I was turning away to be loaned across the counter and said in a confidential whisper, "Here your pardon, Madam, but there's something I'll bet you never seen in the Old Country."

I followed his pointing finger until my eyes rested on a tea-table presided over by a smartly dressed woman. "You're serving tea in the shop?" I asked.

"No," he explained, also confidentially, "she's what we call a demonstrator." It's really a Yankee advertising dodge. You see, that lady represents a big manufacturer of canned goods and jelly-puddings, and she goes around to the different cities and serves samples of the stuff. In the principal stores, and takes orders too. Better to order and sample the things; they're a real good brand. Miss Montgomery will be only too glad to let you see the way we run things over here—that's her job. I don't suppose Montgomery is her name; demonstrators are like actresses, they change their names for the good of the trade."

Thinking my instructor, I proceeded to follow his advice. "There were several people standing between me and the table, and it was not until I was close beside him that I noticed Mr. Livingston sitting opposite the demonstrator and calmly consuming a dish of peaches."

"You here?" I stammered awkwardly.

"Sure," he replied. "Didn't you know that I never could resist a peach?"

The demonstrator smiled appreciatively. "Then gentlemen are all alike, ain't they? she sympathized. "But they are different ones; they've been married a while. I should know, for I've had four."

From the back of her gay and ringing eye I imagined that a grin would not be unbecoming. She was one of those conspicuously blonde blondes, and she looked as if she had been up-brothered rather than clothed in the usual way. In fact, she made me think of the girl that I had told me about who had to put on her dress with a shawl on.

"Won't you try some jelly?" she asked sweetly. "The peaches are so much richer than jelly usually like, but they are so nice that the gentleman asks for."

"I'm not keeping house," I began, "and it is like that. But I can give you an order. But I should like to try your jelly."

And once more the lure of the unknown led me into mischief.

"Just handing, are you?" my hostess asked with interest, and she served me a generous portion of pineapple jelly and passed a plate of peaches. "I needn't think that's a mistake for young people just starting out. I'm sure Mr. Bingham will agree with my own, don't he, now?"

"Nothing would suit me better," agreed Mr. Livingston heartily, "than to see my wife getting a can of these peaches in my own kitchen."

The demonstrator turned to me. "The old custom is to be your mother, even if I don't like it," she said impulsively, "so I'm just going to give you a word of advice. If you've got a good man that wants a home in his own, don't make him live in a board house—and they're mostly good Chinese cooks in this town, ain't they? I'll be back here in the spring again, and I hope by that time that you will be able to give me a good big order. Not that I'm so dead set after customers, you understand, but because I hate to see a likely young couple make a mistake."

Mr. Livingston choked on his last piece of peach, and I blushed furiously—not because I was embarrassed, but because the woman's bluntness had given me an inspiration, and I had given me a good big order. "Not that I'm so dead set after customers, you understand, but because I hate to see a likely young couple make a mistake."

"There was a house that we passed this morning," I began, shyly, "and someone said it was for sale. And it's actually good for me to take an interest in our affairs, isn't it, now?"

"Don't gape at a confused assent, and I admired towards an inspiration in howled inspiration."

"I'll tell you what we might do," I went on. "I have become very much interested in the little hospital here. Wouldn't it be just lovely to send over a box of jelly and preserves? Let me see, a dozen tins of peaches and a dozen packages of the jelly-puddings will be enough, I think. You pay for them, don't you, while I go for my other parcels?"

And with this I escaped.

I did not see Mr. Livingston again until we met for dinner. He was in the dining room when Mrs. Bingham and I went in, and as I entered the door he came towards me with his hand out. "You win, Miss Elliott," he murmured, "and I thank you for a very welcome donation."

Then with a return of the old-time twinkle, which is really not so unpleasant when one becomes used to it, he said, "There's a lovely little town—just say the word and I'll order a pair of saddle-horns. I don't feel as if I could wait much longer."

(To be continued)

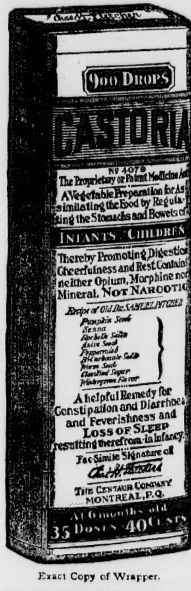

Remember your local Printer. It is poor policy to send your job printing out of town. It does not pay, but rather which way you look at it.

Castoria, or Something Else?

FLETCHER'S CASTORIA is particularly a preparation for Infants and Children made agreeable to the taste, acceptable to the stomach and pleasant in its action. It has been in use for over thirty years and has always been one of the most highly esteemed of all cathartic preparations.

It has one great advantage over other preparations of its kind in that while it opens the organs readily and completely, it does not have a tendency to produce subsequent constipation so much to be dreaded.

Fletcher's Castoria having been prepared solely for our little-ones, should not be confused with ordinary cure-alls or preparations primarily compounded for grown-ups. The child's organism, so delicate and tender, requires specially prepared medicines and foods, the one no less than the other, as mother-love well knows, and mother-love can not be deceived.

Children Cry For Fletcher's CASTORIA

What is the Matter with Baby?

It cries fretfully, is restless and does not sleep well, its bowels do not move or it has diarrhoea, it does not eat or it has flatulence and vomits easily. You know baby is sick. You want to help baby get well safely and quickly.

If you are wise you will use Fletcher's Castoria, the wonderful remedy for babies' ills, that was discovered by a family doctor and that has been used for over thirty years.

When you have learned the value of Fletcher's Castoria you will never be without it, you will tell other mothers what a useful remedy it is. You will be able to keep baby well and happy by using it to keep his stomach sweet and its digestive organs acting naturally. You will call Fletcher's Castoria the Children's Comfort and the Mother's Friend.

Don't say tomorrow—try it today. And above all things don't try to relieve baby with a remedy that you would use for yourself. MOTHERS SHOULD READ THE BOOKLET THAT IS AROUND EVERY BOTTLE OF FLETCHER'S CASTORIA

GENUINE CASTORIA ALWAYS

Bears the Signature of
Chas. H. Fletcher.
THE CENTRAL COMPANY, NEW YORK CITY.

Not Exclusive

Elizabeth (aged four)—No, indeed.
We haven't anything to be ashamed of.

She Has Raised A Family Of Ten

DR. FOWLER'S EXTRACT OF WILD STRAWBERRY NEVER FAILED HER

Mrs. Elvin W. Stairs, East Water-
ville, N.B., writes:—I have raised a
family of ten children and have al-
ways used Dr. Fowler's Extract of
Wild Strawberry for summer com-
plaint, and it has never failed.

Four years ago, when the cholera
was about, some of my neighbors called
in the doctor, but could get no relief.
I told them that Dr. Fowler's
Extract, and after taking it they were soon
well again. I also used it for two of
my own children at the same time
when they were passing blood, and a
few doses soon made them well.

If you want to be on the safe side
ask for Dr. Fowler's Extract of Wild
Strawberry, and insist on getting
what you ask for. There are many imitations
on the market, so be sure
and get the original "Dr. Fowler's."

Beginning of Life Insurance

First Company Was Formed in London
in 1706

Life insurance originated in 1706 in
London. In that year there was formed
the first life insurance company.
It was called the Amicable Society for
a General Assurance Office. It was a
mutual benefit concern.

Each member, without reference to
age, paid a fixed admission fee and a
fixed annual charge per share on
from one to three shares, and at the
end of the year a portion of the fund
accumulated was divided among the
heirs of those who had died, in ac-
cordance with the number of shares
each dead person had held. Out of
this company, with its crude and im-
perfect methods, life insurance as it
exists today has grown.

Asthma is Torture. No one who
hasn't gasped for breath in the power
of asthma knows what such suffering is.
Thousands do know, however,
from experience how immeasurable is
the relief provided by that marvelous
preparation, Dr. J. D. Kellogg's Asthma
Remedy. For years it has been
relieving the most severe cases. If
you are a sufferer do not delay a day
in securing this remedy from your
druggist.

A Chance for Profiters

It is rather surprising that the Eng-
lish profitor, anxious to invest some
of his money, does not turn his atten-
tion to Austria. For three milliard
linden he could obtain possession of
a heronial castle with both ancestral
portraits and a hot water supply. The
figure seems large, but it means an
expenditure of only \$260. An amount
is made of the high rentals of about
\$100 in Scotland. A magnificent
"house" in Austria, extending over
innumerable square miles, may be
rented for the modest sum of \$20. Liver-
pool Weekly Post.

Had the Opposite Effect

Her father (chronically ill)—Do
you know, young man, that my
daughter is accustomed to getting
everything she wants?

Jack Potter:—I'm glad to hear that,
for I know she wants me.

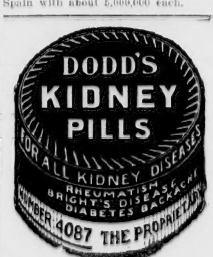

Rand Route No. 1, Moscow, Que.
The Mirror's Latest Keyp.
Say, I feel that I should be doing a wrong
if I neglected to write you. I have had four
letters from you in the last few years. I had
them cut off by a surgeon about three years
ago. I had you again till about three
months ago I had one as large and shaped
like a lady's middle on the very place where
my hair should be parted, and it was setting
on unbecomingly in public. That was a
great worry to me. About three months ago
I got a bottle of your Lintment for another
purpose and saw on the label and for tummy.
(Well I tried it and left it for exactly two
months, with the result that it has really
removed all trace of the tumor, and were it
not that they had seen me often years ago
on such would be true. I have not been
asked for his testimonial and you can use it
as you see fit.)

(Signed) FRED C. ROBINSON,
P.S.—I am a farmer and intend using Min-
ner's Lintment on a horse leg a strained ves-
sels, and also hoping for some results.

FRED C. R.

Water Power Resources Listed

A new French estimate of the
world's water power resources credits
the United States with 20,000,000
available horsepower; Canada with
25,000,000; Norway with 7,500,000;
Sweden with 6,500,000 and Italy and
Spain with about 5,000,000 each.

WORLD HAPPENINGS BRIEFLY TOLD

Theresa stole over £50 worth of platinum while it was being heated in crucibles over a furnace in a temporarily vacant Paris laboratory.

King Albert of the Belgians has accepted an invitation to take part in New York in 1921 in the third century celebration of the founding of that city.

A floating mine of German contraband has been discovered by the fisheries of Antwerp right across the coast of the steamers plying between Marseilles and Nice.

Lord Reading, the Viceroy of India, sent to the Dalai Lama over the new telegraph line to Tibet, recently opened, the King's thanks for his friendly greetings.

The Combined Court of British Columbia has, by resolution, advised the Colonial Government to take over and maintain the wireless station established in the colony by the Admiralty some years ago.

George Saleh, an Egyptian student, fired a shot at an automobile in front of the Palace at the Elysee, Paris, being the car to be President Miller's. The shot went wild. President Miller was at his country residence at Rambouillet at the time.

The Ford Automobile Company has bought a large tract of land on the outskirts of Antwerp, where an assembling plant will be erected, the plant will be ready for operation early next year. Automobile parts will be sent from Detroit to Brussels and the cars assembled there.

Sir Lee Stack, the Governor General of the Sudan, has been negotiating in London for further financial support for Sudan irrigation schemes. It is understood that matters have been so arranged that it will be possible to resume the work during the autumn, work on the Blue Nile dam, Wadkwa, which was suspended last winter.

A proposal is made to establish an aerial line of communication between Tulelake, on the South-West Malakoff coast, and Antwerp, in the interior, which is shortly to be in full way communication with Antwerp again. The line will reduce to two days a journey which at present takes one month.

Short Crop in France

Whole Wheat Bread to Replace the White Loaf

Whole wheat bread will replace throughout France the pure white loaves and rolls that since the war have received such a warm welcome back to the French dinner table. This is due directly to the fact that this year's wheat harvest in France is estimated much below the yield of last year, when there was a bumper crop of \$8,000,000 quintals.

It is feared that before the 1925 wheat crop can be reaped the country will have to buy some 20,000,000 quintals of foreign grown wheat to meet the requirements of the population.

Unit to Live—Must Die

This verdict is rendered a thousand times every week—no corn can live. It must pass out, drop off. If Pullman's Extractor is applied to corns and warts. Use the old reliable "Putnam's." It never fails, 25c at all dealers.

Birmingham, Ala., claims the largest Sunday school attendance in proportion to population of any city in the world.

Dye Skirt, Coat.

Draperies With Diamond Dyes

Each package of "Diamond Dye" contains directions so simple that any woman can dye or tint faded, shabby, dingy, dress, waists, coats, sweaters, stockings, hangings, draperies, everything like new. Buy "Diamond Dye"—no other kind—then perfect home dyeing is guaranteed, even if you have never dyed before. Tell your druggist whether the material you wish to dye is wool or silk or whether it is linen, cotton, or mixed goods. Diamond Dye never streaks, spots, fades, or runs.

A man of seventy has renewed his former youth, 74 times and has grown 7 ft. 6 in. in all on each finger.

CATARRHAL DEAFNESS

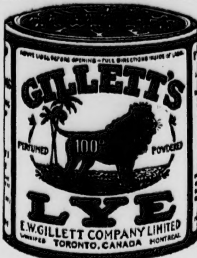

is greatly relieved by constitutional treatment. HALL'S CATARRH MEDICINE is a powerful remedy for Catarrhal Deafness caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a running ear, or a feeling of heat, and when it is entirely closed, deafness is the result. Unless this Catarrhal Deafness is relieved, your hearing may be destroyed forever. HALL'S CATARRH MEDICINE acts through the blood on the mucous surface of the system, thus reducing the inflammation and assisting Nature in restoring normal conditions.

A truckload of lily was one of the wedding presents given to the bride on a Newmarket train in England.

Hard and soft coals both yield to Holloway's Oen Remedy, which is entirely safe to use, and contains no narcotics in its action.

The electric rod, found in Brazil, said Antlana, can substitute quite a severe electric shock, sometimes strong enough to overcome a horse.

Right You Are

"Running a business," says someone, "is a good deal like riding a bicycle. You have to keep on going or fall. There are damned few men who can stand still and maintain their balance in the store, or on a wheel—Better Business."

PALE AND SICKLY GIRLS AND BOYS

Need All the Strength That Rich, Red Blood Can Give Them

Youth is the time to lay the foundation for health. Every girl and every boy should have plenty of pure, rich blood and strong nerves. With this, nature brings the start life with a handicap too great to win success and happiness. Rich, red blood means health, fast growth, strong nerves, a clear brain and good digestion. In a word pure blood is the foundation of health.

The signs of weak, watery blood are unmistakable. The pale, irritable girl or boy, who has no appetite or ambition, is always tired out, short of breath and does not grow strong. Is a victim of anemia—the greatest enemy of youth. There is just one thing to do for these girls and boys—build up the blood with Dr. Williams' Pink Pills. You can't afford to experiment with other remedies, for there must be no guesswork in the treatment of anemia.

Dr. Williams' Pink Pills are directly on the blood, giving it the elements it lacks, thus developing strong, healthy girls and boys. Mrs. R. Kinch, Hopedale, Ont., tells us follows that these pills did for her daughter:—"I think it a duty to let others know the benefit which Dr. Williams' Pink Pills have been to my daughter, and I hope this may be the means of inducing some other sufferer to try them. She was weak, nervous and badly run-down. She took medicine from the doctor but got no benefit, and finally she was unable to walk to school. I was advised to give her Dr. Williams' Pink Pills, which I did, and after taking them for a time she was restored to perfect health. I cannot speak too highly of these pills."

You can get Dr. Williams' Pink Pills through any dealer in medicine, or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams Medicine Co., Brockville, Ont.

After London, in point of population of British cities, come Glasgow with 1,000,000 inhabitants, and Birmingham, with 800,000.

A Simple Little Gown for the Pretty Little Miss

Here is an evening gown of gray chiffon, whose charm lies in its delicacy of color and its simplicity of line. The flowers at the belt are its only trimming.

Red Cross Nursing Outposts

Extending Nursing Facilities to Outstanding Sections in Saskatchewan

The Red Cross will establish one of its Nursing Outposts at Kelvington, thus bringing the total of hospitals and outposts operated by the Red Cross in Saskatchewan to eight, located at Paddockwood, Carleton Place, East End, Hopedale, Hopedale, Carleton Place, Meadow Lake and Kelvington.

The Red Cross has also decided, working in cooperation with the Rural Municipalities of Sarnia Valley No. 7, and Lomond No. 37, to place district nurses at Colgate and Hopedale, the cost of such service to be divided equally between the Red Cross and the municipalities.

This decision was reached at a recent meeting of the committee on Medical and Nursing Services. Reports presented to the committee showed that during the six months of the year, nursing days in the six outposts in operation for a whole or part of that period totalled 1,155, and that 55 babies were born.

The Council of R.M. of Hopedale No. 10, are so well satisfied with the work being done in the Red Cross Outpost there that at a recent meeting it was decided to make important alterations and extensions to the present building, or build a new, larger and more modern one.

The two years for which the Red Cross agreed to operate the outpost at Paddockwood expired in October, and the people there have petitioned for a renewal agreement, and in so doing enter in terms of high praise to the splendid services rendered to them in their isolated location, far removed from all other medical or nursing help.

The Red Cross has also authorized the establishment of an outpost at Medford on condition that a suitable building is provided, but steps in that direction have been deferred until next spring.

Eleven graduate nurses are now employed permanently by the Red Cross in Saskatchewan. The expenditure for the past twelve months in equipping and operating outposts and maintaining district nurses in the field has been approximately \$20,000, while donations for this work have amounted to about \$1,000.

Worms sap the strength and undermine the vitality of children. Strengthen them by Ascarid, Mother, Graves' Worm Extirminator to drive out the parasites.

Editorial Apology

The editor of a small paper in a remote district of Southern California found himself unable to insert his usual column of brief marriages and deaths. Thinking that some apology was needed for such an untoward circumstance, he inserted the following in clear, black type: "We regret that owing to pressure upon the space several deaths have been in editably postponed."

Minard's Liniment Lumberman's Friend

OIL LIGHT BEATS ELECTRIC OR GAS

BURNS 94% AIR

A new oil lamp that gives as much light as electric, and burns better than gas or electricity, has been tested by the U.S. Government, and is leading universities and found to be superior to ordinary oil lamps. It burns without smoke, noise or vibration, no pumping up. Is simple, cheap, easy. Burns 94 per cent air and 6 per cent common kerosene (test oil).

The inventor, T. V. Johnson, of the Dorman Co., Winnipeg, is offering to send a lamp on to test FREE, or even to give one FREE to the first user in each locality who will help him introduce it. Write him today for full particulars. Also ask him to explain how you can get the lamp, and without experience or money, make \$250 to \$500 per month.

Launches Glider 4,000 Feet Up

Harry Klempner, celebrated American gliding champion, had a narrow escape from death at Zurich. He launched his diminutive motorless glider from a balloon at 4,000 feet and dangled like a plummet toward earth, falling in but seven seconds, but averting a fatal crash.

It is usually safe to say that when a child is pale, sickly, peevish and restless, the cause is worms. These parasites range the stomach and intestines, causing serious disorders of the digestion and preventing the infant from deriving sustenance from food. Miller's Worm Powders, by destroying the worms, cure the various fruits of the digestion and serve to restore the organs to healthy action.

The world's old trees are said to be capable of supplying nutriment to its entire population.

It's a fine thing to keep out of trouble—

but it's a finer thing to know how to get out of trouble after you have gotten into it.

Many people thoughtlessly get into trouble by loading up with heavy, indigestible foods which fail to supply the essential elements for repairing the daily wear on their nerves and body tissues.

It is well to know that Grape-Nuts with good rich milk is a highly nourishing food, providing all the necessary nutritive and mineral elements in proper form for

ready assimilation by the system. When you make Grape-Nuts a substantial part of your regular daily diet, Nature will quickly assist herself and build healthy nerve cells and sound body tissues.

Crisp and crunchy Grape-Nuts, made from wheat and malted barley, is a satisfying food for breakfast—a welcome answer to the call of appetite.

The familiar Yellow package contains more nourishment in less bulk than any other cereal food.
